WRITING WITH EERA

Book Series - Transdisciplinary Perspectives in Educational Research

11.05.2022

Invitation from the EERA Board is to submit a proposal for books within a new book series with Springer Publications on transdisciplinary research in education.

Transcending disciplinary boundaries is increasingly important for devising solutions to pressing issues in institutions, practices and systems of education and the present invitation from the EERA Board is to submit a proposal for specifically themed edited books (anthologies) within this area. The call is open to all members of EERA affiliated organizations. We are ideally looking for collaborative projects developed within or across the 32 EERA researcher networks that organize the academic work for ECER. Proposals should be sent by email as a word-file attachment to the coordinating editor for the series. Dennis Beach, at dennis.beach(at)ped.gu.se by completing the proposal template at (download template).

Contact & Submit

Please send proposals - using the completed proposal template (download) - by email as a word-file attachment to the coordinating editor of the series.

RESEARCH QUICK DATING

SCISSORS – ROCK – PAPER

WHO ARE YOUUUUU?

1. Use this as a guide:

- What is your current position?
- What research projects are you involved in?
- What are your research interests and goals?
- Since when do you go to the ECER? Or is this the first time?

2. Choose one question:

- What was your best/ funniest situation you have experienced @ECER?
- What is the best/most interesting part of your research?
- What is the best/most interesting part being involved in teacher education?

SHARING IS CARING

We need your Feedback:

- Please tell us what you think, what did work, but also what did not work!

ECER 2024

ECER 2024, Nicosia

26 - 27 August 2024 - Emerging Researchers' Conference
27 - 30 August 2024 - European Conference on Educational Research

Theme: Education in an Age of Uncertainty: memory and hope for the future

Social, political and economic problems have significant impacts on education and educational research. Educationalists and educational researchers have always been at the forefront of efforts to respond to societal changes. In this respect, the last few years have been exceptionally challenging for education systems and educationalists across the world.
